### **There are some tools to help you learn more efficiently:**

- 1) **Vocabulary:** when you see highlighted words like *electroscope*, click on this word to see its Thai translation. (Called **Glossary**)
- 2) You can **download** and **print** most of the context from this web site.  
Click: **File > Print preview > Print**
- 3) Even if you miss a class you can learn the topic right here on your free time.
- 4) There are many links to other web sites and activities that will help you with the learning process.
- 5) Some **quizzes** will take place on this web site. You will have time limit so make sure you complete the quiz / test according to the given time; checkout the clock on the upper right corner of the screen:

After you submit the quiz / test you cannot change it so check your answers before submitting your work.

**You have to submit all your assignment and homework like any other class, some will be online assignment and some will be on paper.**

In every class there are:

- Lesson
- Class activity
- Homework
- Quiz
- Forum

You must write something on the **forum** at least once a week.

A. Rambo will tell you the topic to write about.

You will get a grade for your participation in the forum.

*I hope you will enjoy studying with me this year*  
**Teacher Rambo**
